## Experience

### Brightbit

#### CREATIVE DIRECTOR, CO-FOUNDER

Mar 2010 - Present

Formed after receiving support for a product idea during Startup Weekend, I handle all of the design, front-end development, marketing and social media for Keynotes (<http://keynot.es>).

### wimgo

#### INTERACTIVE DESIGNER/DEVELOPER

Apr 2009 - Present

User Interface designer and front end developer working on wimgo.com, the largest collection of events, restaurants and community information in Oklahoma while will launch nationally in Summer 2010. As a senior designer/developer, I helped audit the existing code to prepare for a national launch and ensure best practices. I also lead design and development of wimgo's Business Resource Center which is one of the primary revenue sources for the site.

### ImmerseMe

#### CREATIVE DIRECTOR (CONTRACT)

April 2009 - January 2010

Worked directly with clients on this 3-person team (the other two were business/sales), from planning to design and development. Most clients were part of a package which included Content Management support with LightCMS or Wordpress. Occassionally oversaw the work of freelance designers as intermediary between designer and client.

### Element Fusion

#### DESIGNER/DEVELOPER

October 2008 - April 2009

Worked with clients and project managers from project planning to design to development and integration with ElementFusion's proprietry LightCMS. After many years of working in customer service roles for other companies, I loved working directly with clients and helping small businesses gain a presence on the internet with beautiful designs. I only left to focus on interface design and get experience working on a large development team.

### Ogle Fine Art & Design

#### SOLE-PROPRIETORSHIP

March 2000 - July 2008

Self-employed as a freelance web designer, illustrator and artist. Worked with many small clients and not-for-profit groups, becoming proficient in web development while studying art & design.
